

MESA Community of Practice on *pfhrp2/3* gene deletions

MESA Forum - 7 June 2023 (virtual)
367 registrants from 70 countries, primarily from malaria-endemic countries

- Objectives**
- Initiate experience/information-sharing among stakeholders
 - Offer a platform for interactive discussions

Presentations

Deus Ishengoma [Chair] – NIMR, Tanzania

Presented the CoP: rationale, planned activities, and key topics of interest

Agaba Bosco – NMCP, Uganda

Outlined implementation of national surveys and lessons learnt

Qin Cheng – ADFMIDI, Australia

Showcased the WHO international lab network supporting molecular analyses and listed collaborating labs

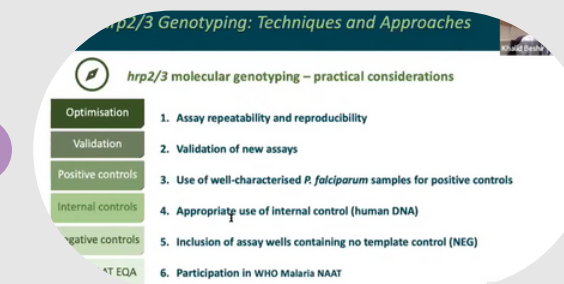

Khalid Beshir – LSHTM, UK

Described the techniques and approaches for *hrp2/3* molecular genotyping, including practical considerations
